

Ease of Doing business Initiatives of NMPT

- **eDO:** Electronic Delivery Order is successfully implemented in NMPT Port operations system for paperless delivery of containers and cargo reducing multiple documentation.
- **Online Cart Ticketing System:** NMPT has introduced the usage of online Cart ticketing system in the RFID application for efficient and smoother gate operations.
- **e-Office:** NMPT has successfully implemented e-office, reducing paperwork and speeding up internal approval processes for efficient administration and targeting a greener Port.
- **SMS and Email notifications:** NMPT has introduced SMS and email notification for the Port Clients for sharing Invoices, receipts and reports which has eased the business requirements of the Clients during the existing pandemic condition.
- The port has streamlined delivery of bulk/coastal cargo by permitting the C&F agents to take **alongside delivery** of cargo which has significantly contributed to reduce TRT of Truck/Trailer movement, fuel and manpower requirement. In addition to the above, this has also helped to minimize the documentation for hassle-free clearing of cargo from the port
- The port has dispensed with notional booking of gangs for mechanized handling of dry bulk cargo which has reduced the handling cost of the cargo. Moreover, there is improvement in productivity of the vessels.
- **ERP** implemented for reducing redundancy of data entry into the system
- **Integrated Port Operating System(IPOS)** has gone Live at NMPT on 17-12-2020. This new IPOS solution offers state of the art operation module which are highly interactive to the port users thereby encourage Ease of Doing Business
- **Established an integrated laboratory and testing facility:**
 - Plant Quarantine Station is functional w.e.f.1-7-2004 at NMPT
 - NMPT is notified as Animal Quarantine Station, but due to less volume the same is being operational from Bangalore office.
 - FSSAI accredited laboratories have commissioned collection centres for testing all food grade items w.e.f. 20-7-2016
- **Container Scanner: Test run is over and ready for commissioning**
