TRADE CIRCULAR

Sub: Sealing of Containers after inspection

It has been observed that the laden containers after sampling and inspection of the cargo by Plant Quarantine/FSSAI or other Partnering Government Agencies are not immediately secured and left opened in unsealed condition. This may result in the spillage, theft or missing of the cargo inside the container.

2. In view of the above, it is advised that the containers which are opened for sampling or inspection should be secured and sealed immediately as per guidelines. The concerned C&F agents have to ensure the same. The Port will not be responsible for any damage/pilferage or compromise of the container/cargo that might occur, and is not liable for any loss of cargo in such cases.
