\*\*\*\*\*

"Aarogya Setu" launched by Union Government is one of the preventive measures to break the spread of pandemic COVID-19 through sharing of critical information of proximity about infected persons in the nearby vicinity of the application user. The application has already shown effective result in the national fight against COVID-19. Also this mobile application offers rolling updates from the health ministry on the Corona virus pandemic.

Port involves activities of various stakeholders for the day to day work which needs human interaction, wherein port as well as its stakeholders have to ensure all preventive measures as a social responsibility ensuring and breaking the Corona spread.

Hence, all port users who are required to enter port premises are requested to download and install the "Aarogya Setu" mobile application in their cell phones. Various agencies/stakeholders who deal with the port activities are also informed to instruct the employees, workers, drivers, and cleaners etc to inform the same.

This small step will not only keep ourselves away from COVID-19 but also will take care of our colleagues, friends and community in large.
